

## **Diagnosis Details**

Timestamp: 2025-07-22 12:20:50

Diagnosis Type: audio

Symptom: N/A

## **Patient's Problem**

Hello Doctor, I think I have injured my knee.

## **Diagnosis Summary**

With what I see and hear, I think you have a knee abrasion, likely caused by a fall or friction, which appears to be superficial but may be painful and susceptible to infection. I would recommend cleaning the wound with mild soap and water, applying an antibiotic ointment, and covering it with a bandage to promote healing and prevent infection.
