Patient Information

Patient ID: anonymous

Report ID: 1753341621636

Patient's Input (Transcript)

Symptom: None

Transcript: Hello Doctor, I am having a lot of itching on my skin. Please help me with the session.

AI Diagnosis

With what I see and hear, I think you have a skin rash or possibly eczema, given the red and inflamed area on your arm, and your complaint of itching. I would suggest some topical creams to help soothe the skin and reduce inflammation, such as hydrocortisone cream, and also some oral antihistamines to relieve itching, and if the condition persists, we may need to consider further testing to rule out other conditions.
